What you need to know about NCMIC's Professional Liability Insurance Coverage

Professional liability insurance coverage is available in two forms: Occurrence Coverage and Claims Made Coverage.

Occurrence Coverage provides coverage for injuries that occur during the policy period regardless of when the claim is reported. Claims may be reported in writing at any time during the active policy period or after the policy expires, is cancelled or non-renewed.

Claims Made Coverage provides coverage for incidents that occur and are reported in writing on or after the **retroactive date** of the policy, and before the policy expires, non-renews or was cancelled. Upon cancellation, you have the option to purchase an Extended Reporting Endorsement or "Tail Coverage", which will allow claims to be reported for an indefinite period of time after the policy period is no longer active, as long as the injury occurred on or after the retroactive date and before the policy expired, non-renewed or was cancelled.

The **retroactive date** defines the date coverage begins and after which claims may be reported once your policy is in effect. The retroactive date is stated on the declarations and can be concurrent with the effective date of the policy or a date other than the effective date of the policy, upon which you and we agree coverage will be effective. However, if you purchased an Extended Reporting Endorsement from your current carrier, your prior policy was an **Occurrence** policy or you have had a gap in coverage, the retroactive date will be concurrent with the effective date of the new claims made policy.

If your expiring policy was a **Claims Made** policy, and you now desire an **Occurrence** policy, you have the option to apply for **Prior Acts Coverage**. This will allow claims to be reported for an indefinite period of time after your previous policy is no longer active, as long as the injury occurred on or after the retroactive date that you and we agree on and before your previous policy expired, non-renewed or was cancelled. Your **Occurrence** policy will be made effective the date your previous claims made policy expired, non-renewed or was cancelled and any claims resulting from future injuries will be handled under the terms and conditions of the **Occurrence** policy. Note: your application must be received prior to the cancellation of your previous policy to be eligible for Prior Acts Coverage.

Effective Date of Coverage
